Application Form

Welcome to Eminent Institute Of Management & Technology [EIMT]. EIMT was founded by Sonia Gandhi Mahila Bahuudeshiya Samajsevi Sanstha [SGMBSS] and established in year 2006 under Government of Maharashtra with Regd No 107/2006.

EIMT is the outcome of the dream of a desire to create education system, which can be taken from anywhere and the student will get the equal opportunity & motivation to learn & receive education to become Achiever par excellence.

Professional Training Programmes of EIMT are designed in way to enhance your potential to perform efficiently in challenging corporate world. At EIMT we understand the change & rapidly encourage it.

Director's Message

Welcome to Eminent Institute Of Management & Technology (EIMT), new world of Distance Education and Training programmes. Imparting education is the sincerest of all public services. Spreading it with a passion to build a strong nation is the best way to serve, that is, exactly what Eminent's ambition is.

In this era of highly competitive global market, there is urgent need to create synergic environment between present need and future expectations. In an era that has come to become the epitome of competition, management institutions face the very pressure to prepare their students for performance, leadership and excellence!

The primary mission of Eminent is to provide quality education by the best, qualified and experienced management and teaching faculty available from the top foreign & local universities & in the most economical value possible. The courses offered by Eminent are focused on the expertise, skills and knowledge needed in today's workplaces.

All the best.

Shankarrao Rathod

Director

Eminent Institute Of Management & Technology

Mission

Eminent Institute Of Management & Technology (EIMT) is established with a sole objective of offering the highest quality of higher education to working executives & students at an affordable price.

Vision

EIMT will serve a learning environment that will enhance student's knowledge, skills & attitude in their pursuit towards achieving higher career growth.

We aim at making education affordable for everyone in the society maximizing the opportunity for students to widen their horizon.

Step 1) Registration

After taking details about the relevant course and understanding the payment options, the Student is required to register with EIMT by making payment in the following modes:

- a) Cash
- b) Cheque
- c) DD
- d) Bank Deposit in EIMT accounts across India.

Note: Make sure you have collected the receipt of EIMT after making the payment.

Step 2) Submission of Documents

After duly finishing the registration process, Students are required to submit all the relevant documents as required for the admission. Following is the list of basic documents which are mandatorily required:

- a) Xerox of Mark list of Last Qualifying Exam (As required for Admission in EIMT)
- b) Experience Certificate (If Required)
- c) ID Proof
- d) 2 Photos (Passport Size)

Step 3) Issue of Student Id and Admission/Welcome Letter

Once the above two steps are completed, the Admissions department of EIMT will release and issue the Student ID Card and Admission/Welcome letter. It is mandatory to keep the following documents safe till the completion of your course:

- a) Fees Receipt
- b) Student ID Card
- c) Admission Letter

Step 4) Issue of Study Material

If the student has made full payment of fees, his/her Study Material will be released within 45 days of such payment. In case of a Student opting for Installment facility, the Study Material will be released after 45 days of receiving 50 percent of course fees. Thus if a Student registers with EIMT on 1st of January and his/her 50 percent payment towards course fees is received on 1st of March, the Study Material will be issued to him/her after 15th of May.

Step 5) Examination

The candidates can opt for either,

- i) Exam from Home
- ii) Exam from Center
- iii) Online Exam.

The students are assessed based on course work and examination for every program. EIMT functions with the philosophy that the three-hour class room examination system is old fashioned as it only puts additional stress on students. We believe practical Objective/ Multiple Choice based exams are the actual examination pattern to bring out the Real Manager level thinking capacity from the students. Further, the candidates have also to give a telephonic viva to complete their examination process.

Thus, under any mode the students are examined for their theoretical as well as practical knowledge. Each Paper will consist of 35 Multiple Choice Questions bearing 2 marks each ($35 \times 2 = 70$ marks) and Viva-Voce of 30 Marks bringing the total marks for each paper to 100.

Step 6) Results

Once the students have successfully completed and submitted their papers, EIMT will review and correct the same within 45 days. After 45 days of paper submission, the successful students will be awarded their course completion certificates and mark sheets. The results will also be uploaded on the website of EIMT.

International Association for
Distance Learning, UK

Promoting excellence and benchmarking in distance ,open and online learning worldwide

The International Association for Distance Learning was established in 2004 to promote excellence in open, distance and online learning and to offer a voluntary system of validation and recognition for course-providers worldwide. The IADL name and brand provide benchmarks through which global consumers can gauge the quality of courses offered by our Members. IADL is an independent organization based in London, United Kingdom.

1) The International Association for Distance Learning (IADL) was established to promote quality in distance education and training, and to provide approval and recognition of open, online, and distance learning programmers' and course-providers worldwide. IADL members include schools, e-learning websites, private training companies, NGOs, colleges, universities, and other organizations on four continents.

2) Admission to membership of the IADL includes appraisal of a course-provider's administrative procedures, methods of course delivery, and its educational and publicity materials. Consideration is also given to in-house quality control systems. Members are assessed to ensure that learners receive a product which is consistent with the values and policies set by the IADL. Members are required to undergo periodic re-assessment by assessors and evaluators nominated by IADL.

3) IADL'S officers, assessors, and evaluators include academics, working professionals and peer organizations from a variety of disciplines and countries. Committee members, assessors and other regulatory officers are all qualified and experienced in their own particular fields, and are chosen for their ability to contribute to the work of the IADL. Through a process of continuing quality control, the IADL will monitor the services provided by its membership as an ongoing assurance that standards are maintained.

Examination Procedure

The students are assessed based on course work and examination for every program. EIMT functions with the philosophy that the three-hour class room examination system is old fashioned as it only puts additional stress on students. As far as we believe practical Objective/ Multiple Choice based exams are the actual examination pattern to bring out the Real Manager level thinking capacity from the students. Further, the candidates have also to give a telephonic viva-voce to complete their examination process. The candidates can opt for either i) Exam from Home, ii) Exam from Center, or iii) Online Exam. Thus, under any mode the students are examined for their theoretical as well as practical knowledge. Each Paper will consist of 35 Multiple Choice Questions bearing 2 marks each ($35 \times 2 = 70$ marks) and Viva-Voce of 30 Marks bringing the total marks for each paper to 100.

Exam from Home

As soon as the students are ready to take the exams they are required to call/email the institute for question papers which are to be answered from the comfort of their homes. The candidates are required to submit the answers within the prescribed time limit to the institute through courier / speed post. This unique methodology helps students to write correct answers based on objective thinking and viva-voce bringing forth learning from personal experience. EIMT has designed this novel, liberal, rhetoric education methodology that allows students to make maximum benefits in writing answers to secure higher grades. The mark sheet and certificate shall be dispatched to all successful candidates within 45 days of the submission of the answer sheets.

Study Center Exam

If the students desire to appear for three hour class room examination, they can do so. The exams will be conducted at EIMT study centers. In such a case the students will not be allowed to refer the study material in the examination center as well as the examination question paper differ from that in the above given pattern of appearing in exams. The students should intimate the preference for this option at the time of registration.

On Line Exam

Students can also opt for an online examination system where they get the objective question paper for the course in their email. Within 5 days from the day of email being sent, the student will have to send the answer sheets back via email.

Viva Voce

A telephonic Viva exam will be undertaken for each of the above exam option for all students. This is a mandatory part of the examination and evaluation process. Students will be evaluated on their subject knowledge and practical life experiences. Viva will be of 30 marks for each subject.

Grading

A+ = 80% & Above

A = 65% & Above

B = 55% & Above

C = 50% 54%

Re-Examination

Students will be given the opportunity for Re-examination. If they have failed, a fee of Rs. 500 per subject will be charged for each Re-examination. Candidates will be eligible for re-examination only after a duration of three (3) months of declaration of the last result.

Syllabus	Sem. 1 Engg. Mechanics Engg. Drawings Electronic Circuits Sem. 2 Electronic Measurement & Instrumentations Digital Communication Digital Signal Processing Sem. 3 Communication Engg. Electrical, Electronics & Communication Engg. Power Electronics	Sem. 1 Micro Processor Digital Logic Electronic Circuits Electronic Measurements & Instrumentation Engg. Physics Digital Signal Processing Sem. 2 Communication Engg. Electrical, Electronics & Communication Engg. Power Electronics Digital Communication Robotics & Industrial Automation Electromagnetic Field Specialization
Course Duration	1 Year - 3 Year	1 Year - 2 Year
Examination Duration	10 Days (Each Semester)	10 Days (Each Semester)
Total Fees	Rs. 45,000/-	Rs.50,000/-
Foreign Students Fees	1300 USD	1500 USD

List Of Specialization

- Mechnics
- Drawings
- Electronic Circuits
- Electronic Measurement & Instrumentations
- Physics
- Digital Signal Processing
- Digital Communication
- Electrical, Electronics & Communication
- Power Electronics
- Robotics & Industrial Automation
- Electromagnetic Field

Mechanical Engineering

Programmes	Diploma in Mechanical Engineering (DME)	Master in Mechanical Engineering (MME)
Eligibility	S.S.C. or Diploma with 2 Years Experience	Graduate or Diploma with 3 Years Experience
Syllabus	Sem. 1 Mechanical Engg. Engg. Drawings Engg. Mechanics Sem. 2 Theory of Machines Strength of Materials Applied Thermodynamics Sem. 3 Robotics & Industrial Automation Heat & Mass Transfer Advance Manufacturing Techniques	Sem. 1 Mechatronics Optimization Operation Research Design for Manufacturing Design for Material handling Equipments Total Quality Management Modern Engg. Material Sem. 2 Advance Manufacturing Techniques Applied Thermodynamics Robotics & Industrial Automation Heat & Mass Transfer Fluid Mechanics & Hydraulic Mechanics Elements of Mechanical Engg. Specialization
Course Duration	1 Year - 3 Year	1 Year - 2 Year
Examination Duration	10 Days (Each Semester)	10 Days (Each Semester)
Total Fees	Rs. 45,000/-	Rs.50,000/-
Foreign Students Fees	1300 USD	1500 USD

List Of Specialization

- Mechatronics
- Optimization
- Theory Of Machines
- Strength Of Material
- Machine Designs
- Manufacturing Technology
- Applied Thermodynamics
- Robotics & Industrial Automotion
- Heat & Mass Transfer
- Fluid Mechanics
- Hydraulic Mechanics

Sales Management

Sales, is a unique short - term & interactive career programme which prepares you for a challenging & rewarding career in sales.

Duration: 3 Months

Fees: Rs.15000/-

Retail Management

This course aims at providing industry-specific content in a blended learning environment to secure an entry-level retail position, as well as hands-on training to excel in the field.

Duration: 3 Months

Fees: Rs.15000/-

Accounting Management

This course prepares a young Indian as a 21st century global accountant. The course not only focuses on the emerging trends and practices, but also ensures an in-depth study of the fundamentals of finance.

Duration: 3 Months
